Applications

- Domestic water supply, irrigation & transfer
- Rain to Mains backup systems for new housing
- Water storage tank pump set
- Pressure boosting

Features & Benefits

- Power saving, high efficiency design, uses up to 50% less power consumption than some alternatives
- Automatic pressure controller gives consistent pressure supply with run-dry protection
- Special function on pressure controller that automatically checks for water every 24 hours after a run-dry event
- Certified to AS4020 for Potable Water (Drinking Water)
- Suction lift up to 8m depth (with foot valve)
- Quick-plug connection on Pressure Controller

Construction

- Stainless steel housing & Impeller
- Noryl diffuser and jet and venturi, brass barrel union
- 316 stainless steel motor & pump shaft
- Carbon/ceramic mechanical seals for reliability
- Motor IP55 with Insulation Class F

Available with Pressure Tank, Switch and Gauge
